

HARSH SOLANKI

Full Stack Web Developer (MERN)

Indore, India

+91 7898969930 | harshu6278@gmail.com

[LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience shipping complete web applications using the MERN stack. I've built real-time chat systems, e-commerce platforms, and blogging apps — handling auth, APIs, and deployment all on my own. I write clean, maintainable code and enjoy solving problems that actually matter. B.Tech CSE graduate actively looking to join a team where I can build things people genuinely use.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Auth, Socket.io

Database: MongoDB, MySQL (Fundamentals)

Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Render, Cloudinary, Razorpay

Core Concepts: Real-Time Systems, Auth & Authorization, Context API, PWA Development, Component Architecture

PROJECTS

TalishTalks — Real-Time Chat Application

MERN Stack + Socket.io + PWA | [GitHub Repo](#) | [Live Demo](#)

- Built a production-grade chat app with real-time messaging, typing indicators, read receipts, and push notifications using Socket.io & Web Push API
 - Engineered privacy features — PIN-based chat lock, hidden chats via search, user blocking, and disappearing messages with per-user cleanup
 - Developed a custom PWA with offline support, Cloudinary media uploads with auto-deletion, and a 15-theme dynamic theming system
-

Clothing & Accessories Store — E-Commerce Platform

MERN Stack | Razorpay | [GitHub Repo](#) | [Live Demo](#)

- Developed a full e-commerce flow — product catalog, cart, checkout, and order tracking with custom REST APIs in Node.js & Express.js
 - Built responsive React frontend with search, filtering, and JWT-secured authentication with role-based admin/customer separation
 - Shipped an admin dashboard for inventory control, order management, and user oversight
-

BlogSpace — Blogging Platform

MERN Stack | Cloudinary | [GitHub Repo](#) | [Live Demo](#)

- Built a full-featured blogging platform with publishing, comments, likes, bookmarks, and category-based filtering
- Implemented JWT auth with role-based access, Cloudinary image uploads, and a complete admin panel for content management
- Designed responsive UI with dark/light mode and SEO-friendly structure, deployed on Netlify + Render

CERTIFICATIONS

Web Development Professional Certification

Kodrish Technology Pvt. Ltd.

Comprehensive training in full-stack web development covering MERN stack technologies

Core & Advanced Java Certification

Ypsilon Technology Pvt. Ltd.

Foundation in object-oriented programming, data structures, and Java fundamentals

EDUCATION

B.Tech in Computer Science Engineering

IPS Academy, Indore

Expected Graduation: 2026

Class XII – Higher Secondary (CBSE)

Shree Kasera Bazar Vidhya Niketan, Indore

Year: 2022

Class X – Secondary (CBSE)

Shree Kasera Bazar Vidhya Niketan, Indore

Year: 2020

ADDITIONAL SKILLS & ACHIEVEMENTS

- Version Control: Proficient in Git workflows, branching strategies, and collaborative development
- Problem Solving: Active practice on coding platforms for algorithmic thinking
- Soft Skills: Team collaboration, time management, continuous learning mindset
- Languages: Hindi (Native), English (Professional proficiency)
